

Thursday 30th March 2017

Dear Parent/ Carer,

We are very excited to inform you that next week, the week beginning 3rd April 2017, will be a whole school Science Week. The theme for our Science Week will be 'Science is Fun' and this will be reflected in the exciting, practical learning activities the children will be participating in throughout the week.

During this week, the children will take part in a 'class swap', where they will be taught a science lesson by a different teacher. The children will also be attending special Science Week Assembly as well as designing a science poster. The best poster from each class will go on to be judged on the last day of term, Friday 7th April 2017, in a whole school competition, with prizes being awarded to the winning entries. Friday's celebration assembly will also have a science theme, with children being awarded Star Scientist of The Week certificates.

We are also inviting all children to come to school on Friday 7th April 2017 dressed as a 'Silly Scientist' and are asking for a voluntary contribution of £1 for this non-uniform day. All money raised will go towards funding a future fun and exciting learning activity for the children attending Littleworth Grange.

We are all looking forward to the week and would like to thank you in advance for your support with Silly Scientist Day.

With warm regards,

Mrs. S. Robinson
Y5 Teacher
